Project Failure Statistics

- The failure of IT costs the U.S. economy about \$50-\$150 billion annually. [[Harvard Business Review](#)]
- 17 percent of IT projects go so badly, they threaten the existence of the company. [[McKinsey & Company in conjunction with the University of Oxford](#)]
- Three-quarters of projects fail because senior management doesn't get involved. [[Capterra](#)]
- Just 40 percent of projects at IBM meet the company's three key goals (schedule, budget, and quality). [[IBM](#)]
- 57 percent of projects fail due to communications breakdown. [[IT Cortex](#)]
- The failure rate of projects with budgets over \$1M is 50 percent higher than the failure rate of projects with budgets below \$350,000. [[Gartner](#)]

THE ART OF PROJECT GOVERNANCE

The Georgia Technology Authority saves taxpayer money across 119 state agencies by implementing a process for project evaluation, review, governance, and tracking.

The Art of Project Governance

BY PHIL WEINZIMER

I am certain you have read about the 25-35% failure rate for IT projects. One could logically ask: how can this be when there are dozens of project management solutions in the marketplace, used by thousands of companies that focus

terprise Governance and Planning. "We are the stewards of taxpayer dollars and need to manage project risk," says Rhodes. Fruman's team provides governance for the 200-450 million dollars of critical projects executed each year by the 119

Opinions expressed by ICN authors are their own.

OPINION

How to Succeed at Project Governance

The State of Georgia saved millions of dollars in project costs by implementing processes and a tool that enables the Project Management Office (PMO) to manage projects proactively, identify key predictors for project success, and create an effective team environment among key stakeholders.

Why can't IT organizations figure out how to avoid the high project-failure rate experienced by so many companies? You would think that with all the project portfolio management (PPM) solutions available today, companies would be able to successfully deliver projects on time, within budgeted cost, and achieve the desired business results.

How To Assess and Improve the Maturity of Your Strategic IT Governance Competency?

Strategic IT Governance Maturity Path

How Strategic is Your IT Governance ?

Strategic IT Governance

Major Maturity Components

BUSINESS VALUE

- Strategic Imperative
- C-Suite Sponsorship
- VP/Director/Manager Sponsorship
- Business/IT Governance Board
- Business/IT Partnership Collaboration
- Business/IT Sponsor and Owner for Projects
- Enterprise-Wide Communication Program
- Business/IT Technology Plan
- Project Selection/Alignment Process
- Business Outcome Metrics

PROCESS EFFICIENCY

- Project Implementation Review Panel
- Defined, Process, Roles, Resp. Matrix
- Real-Time Project Monitoring
- Efficiency Metrics to Measure Success
- Stakeholder Involvement
- Project Risk Indicators (*provide predictive risk scores in Dashboard format*)
- Defined Project Success Criteria
- Proactive Project Management/Status Predictors for Project Success
- Collaborative Project Status Process (*Business Owner/IT Owner/Critical Panel Review*)
- Continuous Improvement Process (*Process/Skills/Metrics/etc.*)

Strategic IT Governance Maturity Assessment

Business Value

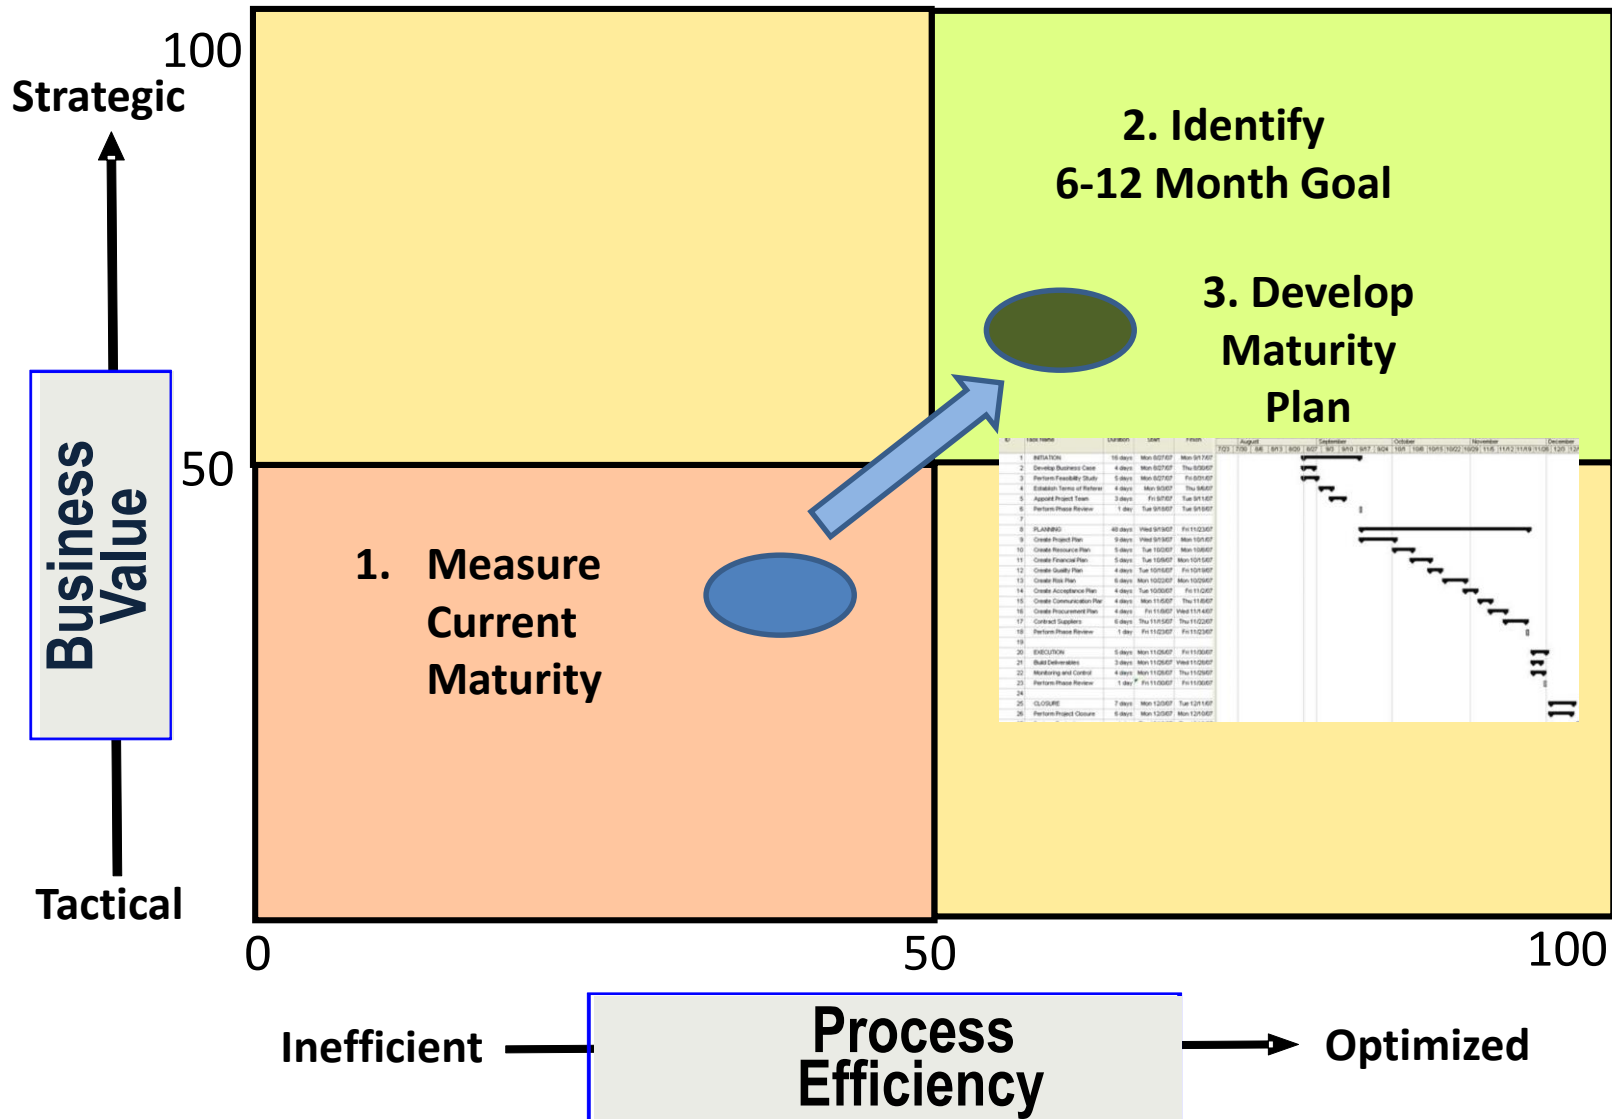

BUSINESS VALUE	BEST PRACTICE	SCORE (1-Low: 10-High)
Strategic Imperative	The business enterprise recognizes IT Governance is a strategic imperative	
C-Suite Sponsorship	The entire C-Suite publicly endorses and sponsors the need for strategic IT Governance as a critical success factor in achieving its business goals and objectives	
VP/Director/Manager Sponsorship	VPs, Directors, and Managers across the business enterprise publicly endorse and sponsor the need for strategic IT Governance as a critical success factor in achieving its business goals and objectives	
Business/IT Governance Board	A Business/IT Governance Board comprised of key stakeholders provides oversight, coaching, and mentoring to organizations involved in IT Governance and receive regular updates on project status, metrics, and risk management issues
